SUBMISSION OF SUBSTITUTE SPECIFICATION UNDER 37 C.F.R. § 1.125

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

Applicant submits herewith a substitute specification. Please replace the present specification with the attached substitute specification pursuant to 37 C.F.R. § 1.125. Except for the addition of paragraph numbers, changes relative to the original specification are shown with underlining (additions) and strike through (deletions). A clean copy of the substitute specification is also enclosed. The substitute specification includes no new matter.

The title has been changed. Support for the new title is found at paragraph [0005], first sentence (see both original and deleted text). Throughout the specification, various references to "invention," "inventive," and so on have been eliminated. This change is intended to make clear that the systems and methods disclosed in the specification are merely exemplary, and the "invention(s)" is defined by the claims and not by the specification. Throughout the specification, various references to the assignee, Fannie Mae, have been eliminated as they are believed to be unnecessary. In the summary of the invention, text has been added that provides a summary corresponding to the currently pending claims. In the

Summary of the Invention, a significant amount of text describing various features that are preferred (and not required) has been moved to the end of the specification (see paragraphs [0146]-[0166]). Several paragraphs near the end of the specification have been deleted to eliminate redundancy between the text moved from the Summary of the Invention and text originally located at the end of the specification. In this text, references to the "invention" have again been eliminated as have references to "objects" for the reasons described above. Other minor changes have been made throughout the specification. Approval of the substitute specification is respectfully requested.

Please direct all correspondence to the undersigned attorney or agent at the address indicated below.

Respectfully submitted,
